

Battling Mold is not easy.

The fight to kill mold is a tough one. Mold is present everywhere but held in check in most cases. Wiping out one colony without removing the enabling factors of food and water will only result in the cycle starting over. Gamka has the specialized methods to kill the mold and to seal out access to the substances that sustain mold. Gamka has the means to tackle the source of water by conventional methods or chemicals.

1-Stop the MOISTURE

Water Infiltration occurs in many ways. Stopping it is a challenge. Gamka has the products, dehumidifiers, expertise and methodology to make the difference.

2-Stop the NOURISHMENT

Mold needs a source of food to live and grow. If it cannot be removed, encapsulating it chemically will eliminate it as a nourishment focus.

3-Stop the MOLD

Killing a particular mold colony is the first objective, keeping it dead is the point. Mold remediation is rarely a simple process. It takes knowledge, technology and perseverance.

1,2,3

Three factors must be present for mold growth: mold spores, moisture and a source of nourishment.

Mold spores are everywhere and have been around long before the human race. To grow, they only need a bit of moisture and something to feed upon. Give it a piece of wood, a bit of paper, some cellulose, wall paper adhesive, organic dust in carpets, or even fiberglass insulation. Mold will proliferate and thrive aggressively. To effectively halt mold from spreading requires more than killing the mold. It means eliminating the dampness and removing or encapsulating the food medium.

Gamka is a full service provider to professionals.

early deliveries, in-house trucking, and expert service. Don't settle for less when Gamka can provide the complete answer. Gamka solves application issues every day, with the correct product for the job.

Gamka is not a Chain Store.

When you deal with Gamka you work with a family-run organization that began in 1986. At Gamka you can speak with owners. The buck stops in Edison, NJ at 983 New Durham Road, not in some distant corporate headquarters. You will find Gamka is a world apart from the typical chain store. Gamka services just the needs of contractors, municipalities, and industry, not home owners.

Gamka is here to help.

Working from a 60,000 sq. ft. facility centrally located in Edison, NJ, Gamka is a Full Service Provider of construction equipment for sale and rental, supplies, chemicals, heavy hardware, repairs, parts, and information. Gamka's experienced staff is a resource for the contractors, municipalities and industries it serves. When assistance is required, Gamka says, "Let's build it together" and means it. Gamka has been family owned and run since 1986.

See for yourself.

Visitors are welcome at 983 New Durham Road, in Edison, NJ. Come by our 2,000 sq. ft. showroom and learn what Gamka is all about, meet the people, see for yourself how we can solve construction problems for you.
